Shahid –

Kenyon has kept me apprised of your communications on the Silverton Mine site, and as he is in the field, I wanted to confirm that I am available to assist you with any further information requests, or contract-related issues, should either be a need.

Kirby and I also had a casual conversation yesterday about optimization review support, but I do not know whether you and he connected on that, what with his being on travel to Seattle for ITRC.

At any rate, let me know if I can assist you in any capacity. That includes after hours as needed. Call or text me on my mobile phone.

Jody
